

Modern Double Cut Semi-Hollow

Hello, hollow Gibson tones!

Like the popular Gibson Custom CS-336 model, the limited-edition Modern Double Cut Semi-Hollow is carved from solid woods and capable of creating classic solidbody and hollowbody Gibson tones. It is based on the award-winning new Modern Double Cut platform which features a first-of-its-kind swept neck heel for easy access to all 24 frets, a long neck tenon to maximize sustain, a sleek new Apex headstock carve for strength and durability and a perfectly-balanced, contoured double-cutaway profile. This model is exceptionally lightweight given its semi-hollow construction and has sleek modern aesthetics to match like four pearlescent finish options and a unique “eyebrow” F-hole. Pick one up and be prepared not to want to put it down!
